

# Purple Sprouting Broccoli

## TZ 7037 F1

### General Description:

This variety has been outstanding for the often difficult late autumn cropping period of October and November, however from sequential sowings it can be cropped from late July onwards. The colour, yield and stem qualities of this variety make it an excellent choice.

**Profile:**

<b>Type:</b>	Hybrid
<b>Cropping Period:</b>	Late October / November
<b>Days to maturity:</b>	130 days approx
<b>Spear colour:</b>	Dark Purple
<b>Plant uniformity:</b>	Good

The information that has been provided is an average of the data gathered from various trial locations. Please be aware that variations in the growing environment and climatic conditions can render this information inaccurate, it is intended for general guidance only.
