

## Pak Choi

*Brassica rapa* (Chinensis group)

# Summer Breeze F1

HYBRID

### General Description:

The first pak choi which has been specially bred in Britain to cope with our ever changing weather! Excellent bolting tolerance during the high temperatures and long days in the summer months has been combined with useful cold tolerance for spring and autumn growth, making this the perfect choice for the British veg grower. It can be picked as 'baby choi' or left to mature, a versatile vegetable for salads or stir-fries

### Profile:

<b>Relative Maturity</b>	Early (25-35 days baby, 40-60 days mature)
<b>Leaf Colour</b>	Green
<b>Leaf Shape</b>	Spatulate
<b>Stem Colour</b>	Pale Green
<b>Stem Shape</b>	Broad based
<b>Flavour</b>	Sweet with a hint of mustard

The information that has been provided is an average of the data gathered from various trial locations. Please be aware that variations in the growing environment and climatic conditions can render this information inaccurate, it is intended for general guidance only.
