

Sweetcorn

Earliking

General Description:

Early season variety producing stocky plants which give a very early pick. Earliking is a dependable 'normal sugary' type (SU) rather than a Supersweet, meaning that the cobs are of excellent quality but with limited shelf life. Recommended for sales into home gardeners.

Profile:

Maturity:	Early, 70 US days
Plant Height:	2.20 - 2.50 m
Cob Length:	22-24 cm
Cob Width:	5-6 cm
Row Count:	12-14
Comparable Varieties:	Earlivee, Sundance

The information that has been provided is an average of the data gathered from various trial locations. Please be aware that variations in the growing environment and climatic conditions can render this information inaccurate, it is intended for general guidance only.
