

Kalettes®

Snowdrop F1

HYBRID

General Description:

Snowdrop is an extremely winter hardy Kalettes® variety with slightly shorter stems which are resistant to lodging in high winds, this variety matures from January to February. The Kalettes® will remain in excellent condition during this challenging growing period and have performed well in trials even in heavy snow and freezing conditions.

Profile:

Cropping Period:	January to February
Days to Maturity:	300
