

Celery

Hadrian F1

Hybrid

General Description:

Hadrian is the newest darker green celery variety showing good height and excellent weight in trials in Europe and USA. During the early sowings it has shown intermediate tolerance to bolting, and in the summer is less prone to producing side shoots than other varieties. Extensive trials are continuing across Europe and the USA where it shows good resistance to Fusarium

Profile

Maturity Slot:	2nd Early/Main	Petiole colour:	4
Height to 1st knuckle (cm):	30	Petiole texture:	3
Resistance to bolting:	3	Resistance to Fusarium:	HR

Key

Petiole colour:	1 = v. pale	5 = dark green
Petiole texture	1 = v. ribby	5 = v. smooth
Resistance to bolting:	1 = low	5 = high
