

Pak Choi

Brassica rapa (Chinensis group)

Green Revolution F1

HYBRID

General Description:

Slow bolting, green stemmed pak choi suitable for UK spring and autumn sowings. Its compact upright habit gives good head weights and is less prone to yellowing and disease. Ideal for baby leaf salad, or straight to wok cooking. Can be eaten young or mature.

Profile:

Relative Maturity	Early (25-35 days baby, 40-60 days mature)
Leaf Colour	Green
Leaf Shape	Spatulate
Stem Colour	Pale Green
Stem Shape	Broad based
Flavour	Sweet with a hint of mustard

The information that has been provided is an average of the data gathered from various trial locations. Please be aware that variations in the growing environment and climatic conditions can render this information inaccurate, it is intended for general guidance only.
