

Salad Onion

Ramrod

General Description:

A distinct Tozer Seeds salad onion which has proved itself in the marketplace. Very versatile, being used for both spring and autumn production. Ramrod is also winter hardy, making it a good variety for drilling in the autumn. Additionally, it can be used for producing larger, bolder type salad onions, especially if overwintered and left to develop in the early spring. Very popular and a superb stablemate to Eiffel.

Profile:

Erectness	Peelability	Ease Of Lifting	Bulbing	Height (cm)	Shank Length (cm)	White Length (cm)
3	3	43	5	60-65	11	4
