

Savoy Cabbage

Vanguard F1

HYBRID

General Description:

A good looking early savoy with nicely formed and filled heads from an initial stage. It has a deep green colour with deeply blistered leaves. Vanguard becomes solid quickly and it holds in the field very well. It has a great taste making it a superior variety.

Profile:

Maturity from planting:	89-90 days approx.
Harvest Season:	September - January
Head weight (Kg)	1.5 - 2 kg
Head Colour:	Very deep green
Features:	Can also be used as a baby cabbage when harvested early.

The information that has been provided is an average of the data gathered from various trial locations. Please be aware that variations in the growing environment and climatic conditions can render this information inaccurate, it is intended for general guidance only.
