To whom it may concern,

Re. Genetically Modified Organisms

Tozer Seeds do not supply seeds of vegetable varieties which have been either developed or produced using biotechnological techniques known as Genetic Modification.

As a consequence we can assure you that seeds supplied now, or that will be supplied in the foreseeable future by Tozer Seeds, have been developed using traditional techniques. Our varieties cannot therefore be construed as Genetically Modified Organisms (GMO's).

Yours faithfully,

Steven Winterbottom
Managing Director

For and on behalf of
Tozer Seeds Limited
