

# Courgette

## Summer Sun

### General Description:

An early high yielding versatile variety, Summer Sun has superb round yellow striped vibrant fruit which can be picked at any size. The baby fruits are great for BBQ skewers or pick fruit about the size of a tennis ball, for standard use or stuffing. They can also be left to develop into larger round marrows. A higher dry matter content makes them great for cooking. The plant habit is a compact, spine free bush for scratch free picking and improved fruit quality.
