

About Us

We are a successful, independent, vegetable plant breeding company based in the UK. We market our seeds around the world and have established businesses in the USA, The Netherlands and Spain.

Legumes

Our Product

We work exclusively with Dutch breeder Pop Vriend and offer a wide range of varieties of Dwarf Bean and Bush Helda Beans.

These are suitable for the professional grower with improvements in colour, texture, taste, size, plant habit and disease resistance.

Variety Name	Maturity	Pod Length cm	Pod Width mm	Colour
	Navajo			
Alonso	+ 4 days	15 - 17	16 - 18	medium dark green
Memphis	+ 3 days	15 - 19	17 - 19	medium dark green

Dwarf French

Kysia

Our best-selling very fine dark green bean. Suitable for both fresh market and processing. Available as treated seed or organic, in quantities 1 million plus.

Rimember

Our best-selling main season fine bean. Suitable for machine harvest for both fresh market and processing. Available as treated seed or organic, in quantities 1 million plus.

Sintra

This is a mid to late season variety, which has medium fine beans.

Venice

This is an early to mid-season variety. It is a fine dark green bean which is ideal for fresh market.

Helda Bush

Alonso

This bush Helda bean is suitable for both hand picking and machine harvest. It requires no canes which means this versatile product has the potential to reduce labour input. It is aimed at both fresh market and processing.

Memphis

For Trial 2023 An improvement on Alonso, one day earlier to mature, Memphis has thick and fleshy pods with excellent colour. Aimed at both the fresh and processing markets. Memphis was developed for machine harvest but is equally suitable for handpick. Requiring no canes this versatile product has the potential to reduce labour input.
