

## Beetroot

# Scarlett F1

HYBRID

### General Description:

This variety of beetroot has a high quality and shape, with excellent uniformity. The tops remain healthy during the spring and summer months which results in a high brix value.

### Profile:

<b>Seed type</b>	Multigerm (more than one seed per fruit)
<b>Flesh Colour</b>	Very dark red
<b>Shape</b>	Round
<b>Brix</b>	11-12
<b>Maturity</b>	Medium early
<b>Sowing Density</b>	400,000 - 500,000 seeds/ha
<b>Remarks</b>	Shorter cooking time, round shape and smooth skin release, make it an ideal choice for cooked, peeled and vacuum-packed foods.

The information that has been provided is an average of the data gathered from various trial locations. Please be aware that variations in the growing environment and climatic conditions can render this information inaccurate, it is intended for general guidance only.
