

About Us

We are a successful, independent, vegetable plant breeding company based in the UK. We market our seeds around the world and have established businesses in the USA, The Netherlands and Spain.

The taste of innovation

Cucurbits

Our Product

Tozer has been breeding **pumpkin** and **squash** for over two decades, with a dedicated Product Development Team.

We're passionate about this area and proud to have our own breeding programme.

In addition, we trial extensively from trusted suppliers from across the globe, to bring you the best varieties for our UK climate and your business.

In 2023 we had excellent results with our new varieties in trial - **TZ 9960**, **TZ 9929** and **Morticia**.

For 2024 we are pleased to bring you an extended novelty range in response to your feedback and the changing market.

We hope our new offering will help you expand your business and wish you a successful season ahead

The Tozer Team

Growing with you since 1944

Pumpkin

Gold Speck F1

A prolific cropper with uniform fruits, Gold Speck is a firm favourite for the popular munchkin market. Orange, scalloped fruit approx. 110g. Most fruit sets close to the crown and so escapes virus flecking.

Baby Bear

This mini pumpkin is the perfect size for young children with a weight of around 1kg and a slender handle. They are great for decorative use and their semi-hulless seeds can be roasted for snacks, while their flesh is ideal for pies.

TZ 9929 F1

We are excited to introduce this dark orange small pumpkin to the UK market. It has performed consistently well in our trials in both Surrey and further north.

Rocket F1

Established and reliable variety, Rocket is an oval fruited, large vine type with mid-season maturity and good yields.

Racer F1

Without doubt our best selling Hallowe'en variety. 5 to 7 kg round fruits with good colour and strong handles. Semi-bush variety which matures early. A consistent, high yielding pumpkin.

TZ 9960 F1 Cauldron

A hybrid pumpkin which has uniform oval fruits with dark orange colouring and strong handles. It is a large vine type with mid-season maturity and good yields. **PMR (Powdery mildew resistance).**

Pumpkin

Wicked F1

Wicked is a Tozer bred variety and produces a high-quality, large, 'monster' pumpkin, ideal for Halloween. It is the first F1 pumpkin bred in the UK and as such is perfectly suited to cooler climates and can thrive even in poor summers as it is early to mature. Additionally, it has good tolerance to soft rots and strong handles, which enhances their storage potential and appearance.

**Wicked**

Cargo F1

Medium- to large-size Jack-o'-Lantern hybrid pumpkin with strong green handles. It's a bright orange globe shape with fruits about 6-10kg. **PMR (Powdery mildew resistance).**

Gold Medal F1

Our best-selling larger variety, Gold Medal is a consistent performer with deep orange skin and long, strong handles.

Pumpkin

novelty

Morticia F1

NEW

Unique dark pumpkin with strong handles. Post harvest, it maintains its exceptionally dark colour and provides beautiful contrast in autumn displays. High-yielding and uniform. In recent trials achieved 10 fruits/plant.

Casperita F1

New, very attractive, small white pumpkin. Produces a uniform crop with excellent skin finish and strong handles.

Snowball F1

NEW

Novel, bright white, small pumpkin with dark green handles. Holds its white colour well under stress. Perfect for painting!

Zombie

The scariest and wartiest Halloween pumpkin available! Zombie is a high yielding variety with uniformly warty fruits. The intensely warted skin is very thick to allow storage for extended periods in displays.

TZ 8302 F1

TZ 8302 produces excellent yields of flashy striped fruit, it is an ornamental pumpkin bred to be stand alone or carved, a great variety for supermarkets and farm shop sales. Its bush habit and attractive colour would also make it suitable for production with limited space.

Goosebumps F1

Medium sized, warted pumpkin, very popular for Halloween displays. Please note quantity of warts can vary depending on conditions.

Pumpkin

novelty

Mellow Yellow F1

Distinctive yellow pumpkin with strong green handles. Mellow Yellow has a weighty, blocky round fruit which is uniform in both shape and size. It also has **high resistance to powdery mildew**.

Polar Bear F1

Extra-large white pumpkin which retains its colour well after maturity in the field. Popular in decorative displays.

Rouge Vif d'Etampes

French heirloom variety also known as Cinderella. An attractive, unusual shape with deep red colouring makes it a popular choice for novelty ranges.

Big Moose

Semi-trailing, compact plants. It will produce 1 fruit per plant. Could grow very large given the right conditions. Pairs beautifully with Polar Bear for seasonal displays.

Gourd

Autumn Wings Blend

A Gourdtastic mix! This gourd blend is an eye-catching assortment of deeply winged, warted pears and other shapes. Colours are vibrant and draw attention in displays.

Turks Turban

Turks Turban is a colourful ornamental pumpkin variety perfect for Hallowe'en displays. Please note sizing does vary.

Squash

Sweet Lightning F1

Flatter dumpling style fruits with exceptional eating qualities.

Excellent for mixed squash sales and decorative display.

PMR (Powdery mildew resistance).

Honey Bear F1

A pretty dark green, hybrid acorn squash. There are 3-4 fruits per plant, each averaging approximately 700g.

Table Star F1

Competitive with the best in the market, plus it has 50% higher sugars than the competitive acorns and it is **Powdery Mildew Tolerant (PMT)**.

Harlequin F1

Unavailable 2024

Green striped acorn squash with exceptionally sweet flesh. Our best-selling Acorn type.

Celebration F1

Golden striped acorn with deep orange flesh. Prolific cropper on a strong plant. Very good eating qualities.

Onion

Also known as Uchiki Kuri, onion shaped with a deep red skin and thick orange flesh. Fruits average 1 to 1.5kg.

Sunspot F1

Bright red fruited variety with deep orange flesh and good eating qualities. Very attractive and eye catching.

Winter Sweet Sombra F1

Perfect for the mixed bin selection, Sombra delivers a combination of sweetness, flaky texture and depth of flavour. Best eating quality between 2 and 5 months after harvest.

Squash

TZ 1867 F1 Rosie

Unavailable 2024

Stunning pink kabocha squash with a glorious texture. Pale pink at harvest. It has the potential for long storage with the best eating quality being 2-5 months after harvest.

Large Green Kabocha F1

It has good yields and excellent storage potential. The plant habit is vine-like and the fruit shape is round and squat, with dark green colouring.

Crown Prince F1

Renowned for its eating qualities, Crown Prince is an attractive steel grey squash. Large fruit with deep orange flesh and long storage potential.

TZ 9890 F1

Maxima type producing beautiful yields of pale pink fruits, a head turning variety that catches the attention of children and adults alike. Its dark orange, sweet flesh make this a versatile product suitable for both ornamental and culinary use.

Butternut

Hunter F1

Bred by Tozer Seeds for the Northern European climate. Up to four weeks earlier to harvest than American Hybrids. Fruits average 1 to 1.5kg with a very high level of marketable fruits and a heavy total yield.

Sweetmax F1

Sweetmax is the latest addition to our early maturing butternut range. This processing type has large 3.5 kg fruits with great internal colour and flavour. This traditional shaped butternut grows on a full vine plant and has the potential to produce a large amount of uniform fruit.

Autumn Crown F1

Autumn Crown produces an abundance of attractive early maturing butternut-coloured scalloped fruits each weighing around 2 kg from reduced vines. The long-storing fruits have a unique 'sweet melon' aroma when cut and the flesh is a deep orange with a small seed cavity.
